Professional Summary

Computer Science graduate skilled in **Python programming**, **object-oriented programming**, and building **scalable software solutions**. Proficient in **Django**, **RESTful API development**, and writing **clean, maintainable code** following best practices. Experienced with **Git version control**, **debugging**, and **agile collaboration** within **cross-functional teams** — eager to contribute and grow as a **Custom Software Engineer**.

Technical Skills

Languages: Python, Java, SQL, JavaScript, HTML5, CSS3

Frameworks & Libraries: Django, Spring Boot, Laravel, React, TensorFlow, Keras, Scikit-learn

Data Science & ML: Pandas, NumPy, Matplotlib, CNN, Deep Learning, Data Augmentation, Hyperparameter Tuning

Core Competencies: Object-Oriented Programming (OOP), Data Structures & Algorithms, RESTful API Development, Software Development, Problem Solving, System Design, Agile Methodology

Database Technologies: MySQL, PostgreSQL, MongoDB, SQL Query Optimization, Database Design

Developer Tools: Git, GitHub, VS Code, PyCharm, IntelliJ IDEA, Eclipse, Jupyter Notebook

Experience

Prodigy InfoTech

August 2024

Web Development Intern

Remote

- Developed responsive, user-friendly **web applications** using **Python-compatible stacks**, **HTML5**, **CSS3**, and **JavaScript**, following **clean, maintainable code** best practices and **software development** standards.
- Integrated **RESTful APIs** for real-time data retrieval, demonstrating proficiency in **API development** and **debugging and troubleshooting** complex data-flow issues.
- Implemented **database integration** for persistent data storage using structured query techniques and **SQL query optimization**.
- Collaborated within a **cross-functional team** using **Git** for **version control**, following **agile development** workflows and contributing to **code reviews** and testing activities.

Academic Projects

Pneumonia Detection System using Deep Learning

May 2025

Python, TensorFlow, Keras, CNN, OpenCV, NumPy, Scikit-learn

- Designed and implemented a **CNN model** in **Python** to detect pneumonia from chest X-ray images, achieving **92% accuracy** — demonstrating strong **problem-solving** and **Python programming** skills.
- Curated and preprocessed a dataset of **5,800+ X-ray images** using **Pandas** and **NumPy** with data augmentation techniques to improve model generalization and reliability.
- Optimized model performance through **hyperparameter tuning**, implementing batch normalization and dropout layers — applying **software development** principles of efficiency and maintainability.

IEAS – Integrated Emergency Awareness System

August 2024

HTML5, CSS3, JavaScript, Bootstrap, RESTful APIs, Python Backend

- Developed a **scalable**, multi-channel notification system to inform communities about emergency drills — designed with **agile practices** and **modular, maintainable code** architecture.
- Implemented **user authentication** and notification scheduling features to enhance system reliability and user engagement.
- Collaborated with team members to gather **cross-functional requirements** and deliver a responsive web interface with real-time alert mechanisms.

Real-Time Weather Forecast Application

June 2023

Python, JavaScript, HTML5, CSS3, OpenWeatherMap API, AJAX

- Built a weather forecasting application in **Python** and **JavaScript** providing real-time data using **RESTful API** integration — applying **debugging and troubleshooting** for reliable **API error handling**.
- Wrote **clean, efficient, and maintainable code** with robust **data validation** and error handling to ensure application reliability and seamless API integration.

Certifications & Training

- Python for Data Science, AI & Development** – IBM (Coursera)
- Java Programming: Arrays, Lists and Structured Data** – Duke University (Coursera)
- Object-Oriented Programming in Java** – UC San Diego (Coursera)
- Data Structures and Algorithms Specialization** – UC San Diego (Coursera)

Education

Noida Institute of Engineering & Technology

Bachelor of Technology in Computer Science & Engineering

Graduating 2026

Greater Noida, India
